Subject: Video Search Processing software
Attachments: Vintra_Estimate#1078.pdf

Michele,

Below is a list of the capabilities of the 'Vintra' video search processing tools that we are looking for. I have found No other companies that offer this package. I ran this list by Courtney at Vintra and she thinks this covers it. She Was going to check to see if her bosses had some sort of list already written up on their letterhead, but I have not heard Back.

- Post event Video search features for motion, face, person, color, object, etc... with results coming back in Seconds. (Huge Time & Manpower savings)
- Facial Recognition search connection to our Mug Shot database. (Improved Clearance Rates)
- Ability to create a known criminal watch lists for Bio-metric searches of video.
- Transforming Videos from various formats into attainable and viewable formats. (In-Car & Body Worn Cameras, Cell Phone, Residential & Business surveillance video camera systems, w/400+ Codec's to view various video formats)
- 500 hours of AI-powered Video processing per month.
- Unlimited number of users. (Employees of LPD. Ex: Narc Unit, Criminal Inv, EEU, & Forensic Lab Video Techs.)
- Unlimited number of projects and cases.
- Creation of accompanying written Report detailing the video search work.
- Community Business owner allies can upload video from their video system via secure link. (Saves in time spent by Officers and A.V. Techs travelling back and forth to pull and/or collect video from business systems)
- Quarterly updates to Vintra's AI algorithms.
- 5 TB Cloud Storage. (Used only while searching the case video. Upon completion, Video is downloaded and stored In our Property Unit for access for Court purposes.) So the 5 TB is used over and over with new casework.
- CJIS compliant cloud with encryption on the way up and down.
- Triple redundancy cloud security storage locations.
- Email Support in 1 business day.
- Roll-over hours – unused hours are good for 1 year.
- Ability to add on 'Real-time' search functions in future. (City Traffic Cams, City/County Building security video, etc)

Thanks for your time,
